On a future with vision
FRAMING THE GLOBAL VISION CRISIS

CAN YOU READ THIS?

HOW MUCH OF YOUR SUCCESS, OR THOSE YOU LOVE, IS OWED TO A SIMPLE PAIR OF GLASSES, LENSES, OR OTHER EYE HEALTH TREATMENT?

● There are over a billion people living with sight loss because they do not have access to basic eye care services.
● 90% live in low and middle-income countries.
● That’s over a billion individuals who cannot read, access fulfilling work or live well into older age.

IAPB’s mission is to create a world where no one experiences unnecessary or preventable sight loss.

WE MUST ACT NOW TO END THE GLOBAL VISION CRISIS BY THE END OF THE DECADE.
THE VOICE OF GLOBAL EYE HEALTH

A GLOBAL MOVEMENT CHANGING HOW THE WORLD SEES

Public health challenges, as large as sight loss, require collective action by governments, private sector, civil society and the public.

IAPB, a not-for-profit organisation, is a unique global eye care community full of extraordinary people and organisations dedicated to ending the vision crisis in our lifetimes.

We hold the collective power and influence to work with leaders, funders and governments to ensure eye health gets the political, health and development priority it needs. We advocate and campaign for change, educate and inform on eye health and connect our global sector.

Our work directly supports our committed members and partners who are delivering services and programs at home and around the world.

IAPB holds trusted relationships with the United Nations and World Health Organisation.

No one else is operating under the same model with the same reach.
