РЕТИНОПАТИЯ НЕДОНОШЕННЫХ **RETINOPATHY OF PREMATURITY**

ПРОГРАММА

11-12 апреля 2013 г.
Москва

**INTERNATIONAL SCIENTIFIC CONFERENCE
"RETINOPATHY OF PREMATUREITY 2013"**

MOSCOW, RUSSIA

April 11 - 12, 2013

PROGRAM

April 11, 2013, Thursday

9.00 Opening of the Conference

Welcome address by Prof. Vladimir Neroev , Chief Ophthalmologist at the Ministry of Health of the Russian Federation, Director of Moscow Helmholtz Research Institute for Eye Diseases
Welcome address by Prof. Ludmila Katargina , Chief Pediatric Ophthalmologist at the Ministry of Health of the Russian Federation, Deputy Director for Science of Moscow Helmholtz Research Institute for Eye Diseases

9.15 - 12.00 Session I

Clare Gilbert (London, UK)	Current status of ROP in the world	20 min
Dmitry Ivanov (Saint-Petersburg, Russia)	Problems of premature babies at the current level of neonatal care development	15 min
Brian Darlow (Christchurch, New Zealand)	Oxygen targeting and ROP - what do current trials tell us?	20 min
Olga Slepova (Moscow, Russia)	Systemic aberrations in cytokine levels and their role in the development of long-term complications in babies with ROP	15 min
Anand Vinekar (Bangalore, India)	Screening and tele-ROP in India	20 min
Sergey Katzan (Odessa, Ukraine)	Setting up a specialized medical care system for ROP babies in the southern Ukraine	15 min
Svetlana Koscheeva (Kirov, Russia)	Quality of provided neonatal care: a factor to decrease the level of severe ROP forms	10 min
Olga Serdyukova (Gomel, Belarus)	An analysis of ROP risk factors in the Gomel region of Belarus	10 min
Asel Sharipova (Almaty, Kazakhstan)	A perspective on the eye care system for ROP patients in the Republic of Kazakhstan	10 min
	Panel discussion	35 min

12.00 - 12.45 Break

12.45 - 15.15 Session II

Graham Quinn (Philadelphia, USA)	Current treatment of severe ROP (include Avastin): ophthalmologists perspective	20 min
Brian Darlow (Christchurch, New Zealand)	Anti-VEGF in ROP: systemic safety	20 min
Hideyuki Hayashi (Fukuoka, Japan)	Reactivation of proliferation after anti-VEGF therapy	20 min
Elvira Saidasheva (Saint-Petersburg, Russia)	Information from retinal fluorescein angiography in ROP diagnostics	10 min
Sergey Isaev (Kaluga, Russia)	Retinal digital image analysis in the natural course of active stages of ROP	10 min
Break - 10 min		
Irina Astasheva (Moscow, Russia)	Current issues in retinal coagulation in patients with various forms of ROP	10 min
Natalia Fomina (Saint-Petersburg, Russia)	The use of the diode laser for treating ROP in severely premature babies	10 min
Pavel Volodin (Moscow, Russia)	Programmable retinal laser coagulation in the treatment of ROP	10 min
Andrei Revta (Archangelsk, Russia)	Trans-scleral laser treatment: overall results of a withdrawing method	10 min
Sergey Katzan (Odessa, Ukraine)	A subtotal retinal laser coagulation: is it viable to prevent the transition of aggressive posterior ROP into terminal stages?	10 min
	Panel discussion	15 min

April 12, 2013, Friday

9.00 -10.50 Session III

Brian Darlow (Christchurch, New Zealand)	Prevention of ROP through evidence based neonatal care	15 min
Oleg Diskalenko (Saint-Petersburg, Russia)	Technical peculiarities of surgical management for ROP stage V	10 min
Artur Baranov (Saint-Petersburg, Russia)	Surgical management in advanced stages of ROP	10 min
Mikhail Karyakin (Ekaterinburg, Russia)	Indications for surgical treatment for stage IV ROP	10 min
Ekaterina Denisova (Moscow, Russia)	Late-onset retinal detachments in patients with ROP: clinical peculiarities and results of treatment	10 min
Ekaterina Mazanova (Moscow, Russia)	Forms of glaucoma in children with ROP	10 min
Marina Zertzalova (Saint-Petersburg, Russia)	Peculiarities of glaucoma development and clinical course in babies born at different gestational ages	10 min
Elena Demchenko (Moscow, Russia)	Use of antioxidants in active phase of ROP	10 min
Galina Nikolaeva (Moscow, Russia)	Comparative efficacy of Histochrome (antioxidant drug) in premature babies	10 min
	Panel discussion	15 min

10.50 - 11.00 Break

11.00 -12.30 Session IV

Ludmila Katargina (Moscow, Russia)	Macular development in preterm children with ROP	10 min
Ludmila Kogoleva (Moscow, Russia)	Visual functions in children with ROP	10 min
Alena Rudnik (Saint-Petersburg, Russia)	Development of proliferation and dynamics of vitreoretinal changes in children with ROP in the long-term	10 min
Dmitry Ryabtsev (Moscow, Russia)	Clinical variants of stages III and IV of cicatrical ROP	10 min
Olga Konikova (Saint-Petersburg, Russia)	Functional outcomes of the surgical management of late stages of ROP	10 min
Irina Kovalevskaya (Saint-Petersburg, Russia)	The possibilities of objective assessment of visual analyser in children with ROP	10 min
Janina Rudnitskaya (Moscow, Russia)	The influence of contact lens correction on vision development in children with ROP	10 min
	Panel discussion	20 min

12.30 - 13.00 Break

13.00 - 15.00 Roundtable Discussion

Ludmila Katargina (Moscow, Russia)	Screening for retinopathy of prematurity is an imperative	10 min
Clare Gilbert (London, UK)	Developing national guidelines	15 min
Graham Quinn (Philadelphia, USA)	Need for long term follow up	15 min
Elena Stepanova (Ekaterinburg, Russia)	Setting up ROP screening system in Ekaterinburg and Sverdlovsk Region	10 min
Marina Petrachkova (Tomsk, Russia)	Setting up an ophthalmological care system for premature babies in Tomsk City and Tomsk Region	10 min
Vladimir Lebedev (Altay Region, Russia)	Setting up an ophthalmological care system for premature babies in Altay Region as part of the health-care modernization program	10 min
	Panel discussion	50 min

15.30 Closing Ceremony
