

# **Universal eye health: A global action plan 2014-2019**

## **Strategies for Implementation**

Ivo Kocur

Prevention of Blindness and Deafness

World Health Organization

Geneva, Switzerland

# World Health Assembly

# **Lessons learnt:**

**Understanding the opportunity**

**Ownership by countries and the key stakeholders**

**Country support on what should be done and how**

**Health system approach - Appropriate use of available resources**

# Understanding the opportunity

**Ministry of Health**

**International Partners**

**Eye Care Professionals**

**Donors**

**Other Stakeholders**

# **Ownership by countries and the key stakeholders**

**Encourage enthusiasm**

**Promote team work domestically and internationally**

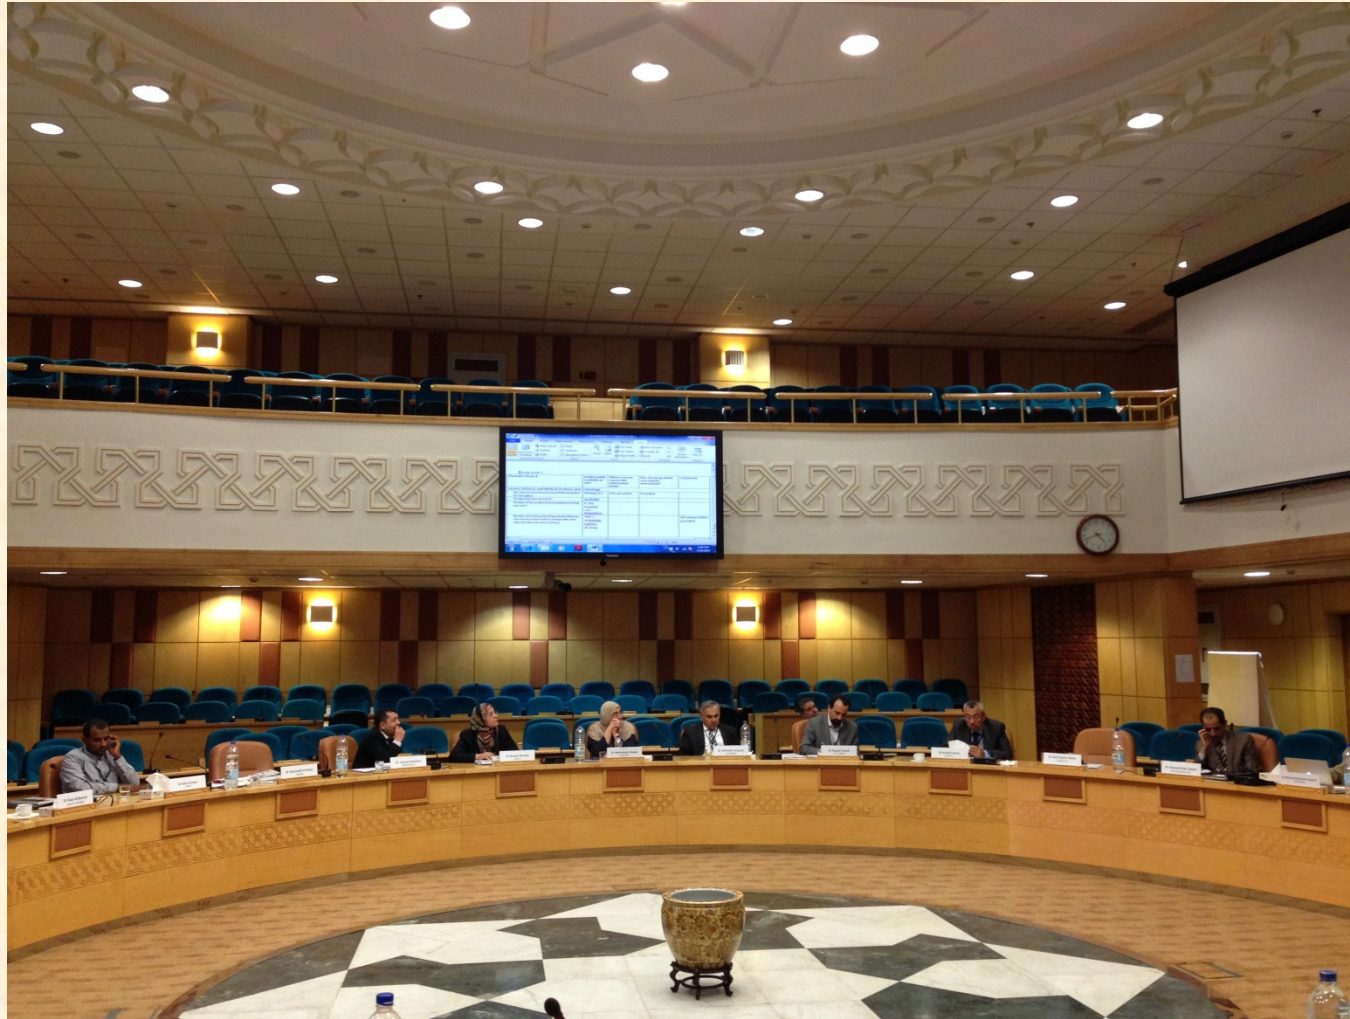

**Demonstrate success and share experiences**

# AFRO

# EMRO

# WPRO

EMRO

**Provide advice and support  
to countries on what should be done  
and how to do it**

**Standard approach to the assessment of eye  
care service**

**Advice on cost effective interventions**

**Collect selected set of indicators**

# **Health system approach - Appropriate use of available resources**

**To operationalize the global eye health action plan in all areas of the national health system**
