MESSAGE FROM IAPB'S PRESIDENT

Your organisation is about to embark on an important step towards ending preventable blindness. In becoming an IAPB member you are joining the largest global eye health alliance. There are currently 140 members of IAPB and we are growing annually.

There are opportunities for all members to collaborate across much of our work, be it through the member led work groups, or via celebrating World Sight Day.

You will be joining some of the most influential eye health NGOs from around the world: Sightsavers, Light for the World, Brien Holden Vision Institute, CBM, Fred Hollows Foundation, International Council of Ophthalmology, Lions Club International Foundation, Optometry Giving Sight, Shanghai Eye Disease Prevention and Treatment Center, World Blind Union and World Council of Optometry – make up our Group A members and have representatives on our Board of Trustees. Alongside the Group A members you will benefit from working with Group B members such as L'OCCITANE Foundation and RANZCO as well as Group C members like Mission for Vision and Fundacion Vision. You'll work with the IAPB team in our global and regional offices too, our strength truly is in uniting as one voice.

The benefits of joining IAPB are measured only by our ability to collaborate and bring together the eye health sector, and we hope to continue doing so with your organisation.

We look forward to you joining us.

President of IAPB

Bob McMullan

“As a network if you want to go fast you can go alone, but if you want to go far you have to go together. I think this togetherness is provided by IAPB”

Sabine Rehbichler

Director for Programme and Advocacy, Light for the World
